# ABOUT FAFAI

In 1949, a group of entrepreneurs came together to form a fraternity to promote flavours and fragrances trade in India. This humble beginning created a sense of unity amongst the manufacturers and traders in the industry of Fragrances and Flavours leading to the formation of the Fragrances and Flavours Association of India (FAFAI). Within a span of 70 years, FAFAI has grown into a national association about 850 members from amongst the traders and manufacturers in Fragrances, Flavours, Aroma Chemicals, Natural Essential Oils, and its ancillaries.

## OUR MISSION

To promote unity and fraternity amongst traders and dealers in the field of Fragrances, Flavours, Aroma Chemicals, Natural Essential Oils as well as related allied fields, and grow as a recognized International Association.

## OUR VALUES

**Innovation**

**Development**

**Growth**

**Customer Satisfaction**

## FROM THE DESK OF PRESIDENT

Dear Friends,

Greetings.

After the stupendous success of the Virtual Bazaar 2021 last year, we are happy to present this year's edition as the world still struggles between the 'old' and the 'new' normal of online and in-person events.

I am glad to announce that we have received the same interest and enthusiasm from exhibitors, participants, sponsors and partners if not more than last year and we are grateful for the faith and trust that all the stakeholders in the industry has put in us.

I thank all our partners, our sponsors, technology providers and all the members of the Managing Committee, especially Mr. Krish Hirani, and the FAFAI Secretariat, whose contributions and support has made this event possible.

Looking forward to a fruitful day of meetings and learning and hoping that this Virtual Bazaar

With fragrant wishes,

**Rishabh C. Kothari**

[rck@ckc.in](mailto:rck@ckc.in)

FAFAI VIRTUAL BAZAAR is conceived to be a platform for exchange of information and highlighting of new or old products, technologies, initiatives or even ideas to all our members. Each participating Company will get an exclusive slot of 25 minutes (Companies may combine and take a maximum of 2 concurrent slots if they wish) and the event will be open FREE for all members (registration compulsory).

Companies may utilize their time to host product presentation, demonstration, speak about initiatives or technologies or even host a lecture and / or a Q&A session as per their preference.

## Event Information & Schedule

# FAFAI VIRTUAL BAZAAR 2022

## Instructions to Join the Event

To register for the event, please use the link: <https://www.mieconference.com/fafai/>

On the day of the event, please click on the link <https://www.mieconference.com/fafaiconference> and login using your registered email id.

You will then be redirected to the Lobby Area of the conference, from where you will find tabs to enter into the Conference Hall, Sponsors Hall, Agenda & Speakers page & Downloads page, the details of which are as under:

- 1) Conference Hall: for attending live sessions hosted by the Exhibiting Companies (you may use the text chat feature for interaction and posting your questions during any particular session)
- 2) Sponsors Hall: for interacting with the Sponsors of the event via video chat or text chat & to view the company details of the Sponsors.
- 3) Agenda & Speakers page: to view the Agenda of the event and to know more about the Exhibiting Companies and their respective Speakers.
- 4) Downloads page: for downloading brochures related to the event.  
Live registration link will be active in <https://www.mieconference.com/fafaiconference> as well on the day of the event.

For Technical Issues, please contact :

Niranjan K: +91-8660259585 (Whatsapp)

## About Company

processWare™ and Creative Control Panel™ are the only software solutions designed “ground-up” exclusively for Flavors & Fragrance, Aroma Chemicals, Essential Oils, and allied Process industries.

Currently, processWare and Creative Control Panel customers are successfully running operations in USA, India, UK, EU, Turkey, Malaysia, Indonesia, Sri Lanka and Thailand.

Being industry insiders with over 20 years of experience, we know that Flavor & Fragrance regulatory compliance is complex and time-consuming. Ingredients and raw materials may have different handling standards and regulatory requirements based on their usage and application, from country to country.

We work with leading industry organizations, such as FCA, WFFC, and NAFFS in USA, FAFAI in India, and IFRA and IFEAT globally, to keep up with the latest business trends and regulatory issues. With extensive knowledge, background and expertise in these industries, our mission and goal are to provide the #1 software solutions at the lowest total cost of ownership for your business.

# Description of Products | Services offered

**processWare™** is the #1 software solution designed exclusively for the Flavors & Fragrance, Aroma Chemicals, Essential Oils, and allied Process industries. Combining intrinsic features of ERP (enterprise resource planning) and CRM (customer relationship management) solutions, processWare provides a “holistic” approach to formulation, production and related planning, quality assurance, supply-chain, sales-cycle management, and critical regulatory compliance for these “essential” businesses.

**processWare** automatically manages documents such as COA, Specification Sheet, SDS, GHS, Ingredient Declaration, IFRA Dosage, Flavor Natural/Identical, Kosher, Halal, DOT, IATA, IMDG and Allergen Statements.

**Creative Control Panel** is specifically designed for the R&D and Project Management needs of the Flavors & Fragrance industry. The entire product life cycle is covered from creation and development of fragrances or flavors, formulation, evaluation, detailed customer project tracking, to submission and sampling.

## About Company

We are suppliers of high-quality aroma raw materials, bases and blends. As authorized distributors of International Flavors & Fragrances Inc (IFF), sole distributors of LMR Naturals by IFF and Symrise terpene-based ingredients in India; our stocks consist of an array of key and unique aroma chemicals, pure natural essential oils, absolutes, resinoids and top-quality reconstitutes and blends. At Fine Aromatics and Herbal Extracts (FAHE), we manufacture a variety of absolutes and resinoids from natural gums and resins. We also blend a wide range of reconstitutes. We are passionate about the application of aromas to enhance daily life. Partnering with world leaders and innovators of the Flavor & Fragrance Industry, we share the technical know-how about the use of speciality ingredients, both synthetic and natural. Our goal is to assist perfumers in selecting ingredients that improve a product's performance or inspire them in ideating future creations.

Fine Fragrances Pvt. Ltd (FFPL) came into existence in the 1980's when International Flavors and Fragrances Inc. (IFF) collaborated with MJ group of Companies to blend fragrance and flavor compounds for leading FMCG brands in India. Since the past 22 years, FFPL has focused on promoting world class aroma raw materials. As established suppliers for aroma raw materials to small, mid-sized and large companies for the past three decades, today we have a fast-growing loyal customer base of over 500 companies pan India. We are valued for our transparent sourcing, unadulterated quality, flexible packing, and prompt deliveries.

## Description of Products | Services offered

Fine Fragrances has a newly upgraded 28,000 square-foot facility in Umbergoan, Gujarat. It consists of a modern prefabricated warehouse, a temperature-controlled area to store essential oils and naturals and also a separate block for stocking of flavor ingredients. Our product list is exhaustive and expanding. In India we import the largest portfolio of ingredients from International Flavors and Fragrances Inc. (IFF). IFF speciality ingredients are consistent in quality and offer unique advantages. To highlight a few; newly added Veraspice - is a unique multifaceted ingredient, a warm balsamic spice with a sweet, smooth tobacco leaf character and dry woody, elegant leathery facets, Orange Flower Ether – works in just touches, an upcycled, renewable and readily biodegradable material stable across most applications. Iso Cyclo Geraniol, a spicy note that enhances florals, Bornafix, a woody amber note with a substantivity of more than 72 hours, Pinoactaldehyde that imparts a light sea breeze feeling to wet laundry and many more. LMR naturals by IFF are extracted using the highest industry standards of purity and transparency for confident use in cosmetic and aromatherapy applications. LMR Natural's collection includes the best helichrysum oil for healing, the finest lavender oil for relaxation, the purest geranium for vitality, the sweetest rose for beauty along with numerous other natural oils and absolutes. The Linalool, linalyl acetate, geraniol and nerolex from Symrise are manufactured from the CST route, which makes these raw materials sustainable and gentler for the earth. The natural gums, resins and absolutes made by Fine Aromatic & Herbal Extracts (FAHE) are of a high standard and purity. Our in-house range of reconstitutes offer cost effective solutions for making blends. Fine Fragrances' goal for 2022 is to support conscious responsible perfumery and true aromatherapy.

### About Company

Givaudan is a global leader in fragrance & beauty and taste & wellbeing. We celebrate the beauty of human experience by creating for happier, healthier lives with love for nature. Together with our customers we deliver food experiences, craft inspired fragrances, and develop beauty and wellbeing solutions that make people look and feel good.

With over 185 locations in 52 countries and over 79 production sites, of which 31 are located in Europe, 13 in North America, 9 in Latin America, 17 in Asia-Pacific, and 9 across South Asia, the Middle East, and Africa, we are committed to driving purpose-led growth that makes a positive impact. Innovation has been at the heart of our approach to perfumery and beauty since the early days in Grasse in 1768, when Antoine Chiris shaped a thriving business from his passion for perfume.

As one of the first pioneers of 'fragrance chemistry', Givaudan has been marrying blends of essential oils with synthetic fragrance ingredients since 1902. Our portfolio of patented fragrance specialities has the power to surprise: discover new olfactive directions, drive fragrance performance or consider a more sustainable approach to perfumery.

We have always made history. Our skills lie in adapting as consumer tastes change and the world progresses.

Givaudan: Human by nature.

## About Company

### **FIRMENICH-**

Firmenich is the world's largest privately-owned perfume and taste company, founded in Geneva, Switzerland, in 1895 and has been family owned for 126 years. Firmenich is a leading business-to-business company operating primarily in the fragrance and taste market, specialized in the research, creation, manufacture and sale of perfumes, flavors and ingredients. Renowned for its world-class research and creativity, as well as its leadership in sustainability, Firmenich offers its customers superior innovation in formulation, a broad and high-quality palette of ingredients, and state of the art technologies including biotechnology, encapsulation, olfactory science and taste modulation.

At Firmenich, we count 83 affiliates which enable us to serve our customers needs in over 100 markets. 10,000 passionate people who believe that fragrance and taste can change the world for good. We create emotions through the sense of taste and smell. With our extensive experience, we create fragrances and flavors for our customers. Touching over 4 billion consumers several times a day, in more than 100+ markets: from their breakfast cereals and their coffee in the morning, to their shampoo, shower gel & fine fragrance when they go out at night.

**INGREDIENTS :** We are using our expertise in Naturals, Synthetics and Biotechnology to invent a planet-friendly future. By providing renewable ingredients that inspire creators and respect the environment – responsibly sourced and produced for present and next generations to enjoy. Expanding into new markets Offering the best of nature to design high-performance bio-sourced ingredients for industries With the acquisition of DRT (Les Dérivés Résiniques et Terpéniques) in 2020, we have become a leader in renewable and naturally-derived ingredients, paving the way for new endeavours in Health & Nutrition as well as new industrial markets.

## Description of Products | Services offered

Sharing Innovation 2022 collection of five prized ingredients celebrates Firmenich's dedication to nature, green science and cutting-edge technology. The launch of this collection follows directly in the footsteps of Firmenich announcing its ambition to be #1 in Conscious Perfumery by 2030. Conscious Perfumery brings together the best of nature and science through a responsible and sustainable approach based on innovation and principles of green chemistry. This collection positively reinforces this mission with its renewable and sustainable ingredients, responsibly sourced naturals with fact-based transparency, and a positive impact on the planet and its people. **SYNTHETICS**

- **MUGUISSIMO™** – A brand new floral Muguet note, born from green synthesis, serving as an exceptionally elegant and competitive Lily-of-the-valley ingredient. It offers freshness, and a natural cyclamen petal effect with watery and anisic undertones. MUGUISSIMO™ is the latest addition to our unrivalled collection of fresh and transparent muguet notes, BEYOND MUGUET.

- **SYLVAMBER™** – A vibrant modern woody note unveiling cedarwood, powdery, and ambery undertones. **SYLVAMBER™** empowers perfumes while adding volume, elegance, warmth and sophistication to any composition. **BIOTECHNOLOGY**

- **Z11 HD** – Intensifying the signature of a perfume, Z11 HD is a tenacious, and sensual dry woody note with an elegant ambery facet. Its process combines white biotechnology and green chemistry, resulting in a 100% renewable and

### **NATURALS**

**ROSE DAMASCENA FIRAD** – Floral, rosy, spicy, honey, balsamic.

**VANILLA PLANIFOLIA MADAGASCAR INFUSION P2F** : Creamy, leathery, woody, Vanilla Planifolia is profound, sensual and animalic, enhancing the gourmand bottom note in floral and amber compositions. It is carefully and responsibly sourced in Madagascar with full traceability through our proprietary digital application Path2Farm

## About Company

Mamta Polycoats is a leading manufacturer and exporter of non-toxic and eco-friendly Citric Acid Esters mainly Triethyl Citrate, Tributyl Citrate for flavours & fragrances & Adipate Esters mainly Diisopropyl Adipate for Cosmetics & Personal Care. Our focus on quality and cost competitiveness has helped us to establish a global presence and became the partner of choice for most of the largest multinationals and the biggest brands in the world today.

Key certifications :-

1. ISO 9001:2015 (Bureau VERITAS, UK)
2. FSSC 22000 V5 (GFSI Certification) (Bureau VERITAS, UK)
3. U.S FDA Registered
4. STARK-Kosher certification
5. COSMOS certification from ECOCERT
6. REACH Registered
7. FSSAI Registered
8. SEDEX (SMETA 4 pillar Audited)
9. ECOVADIS (Bronze medal)

# Description of Products | Services offered

Triethyl citrate is triester of citric acid and ethyl alcohol. Triethyl citrate is a naturally sourced and versatile sourced active ingredient because of its molecular structure and natural source it finds space in different fields Like,

## **A. Personal Care**

- Perfume and Fragrances
- As a perfume fixer
- Film for Hair Spray.
- Nail Polish
- Hand Creams
- Foot balms
- Facial creams
- Sun care Creams
- Hand Creams
- Facial Moisturizer
- Anti-aging Cream
- Body lotions
- Deodorant Spray
- Roll on Deo

## **B. Food Products**

- As flavouring Agent
- Energy Drinks
- Foam Stabilizer in egg white
- Soft Drinks

## **C. Pharmaceutical**

- Pharmaceutical Aid(plasticizer)
- Capsule Coating
- Tablet Coating
- Beads
- Taste Masking

## **D. General and other applications**

- Surface active agent
- Plasticizer for vinyl resins and cellulose acetates
- Plasticizer and humectant for cigarette filters
- Air care products
- Washing and cleaning products
- Polishes and waxes
- Disinfectants
- Pest control products
- Machine wash liquids/Detergents
- Paints
- Coatings and Adhesives
- Pseudo-emulsifier in E-cigarette juices

# BIOLANDES

## About Company

The Biolandes Group is an independent family-owned French company whose core activity is the production of aromatic plant extracts for professionals in the beauty, well-being and nutrition sectors. Since it was founded by Dominique Coutière in the late 1970s, the group has diversified greatly and expanded around the world. Today this development enables the Biolandes group to:

Exert close control over its sources of plant raw materials Offer its partners a very wide range of natural extracts Offer its clients "turnkey" solutions, especially in the nutritional supplements sector Deploy its distribution network worldwide Optimize the reuse and recycling of its plant by-products Represented in India by Associate Allied Chemicals based in Bombay, we supply many of our natural extracts in India to various sectors like perfumes , incense sticks, and cosmetics industries.

## Description of Products | Services offered

Since its creation in 1980, Biolandes has been conscientiously working as regards to nature and people. Minimizing our impact on the environment and preserving local ecosystems have always been at the heart of our decisions.

**RECYCLING OUR RESSOURCES...** Our sustainable commitment is expressed through our choice to promote a full valorization of the initial raw materials by exploiting their full natural potential. Thus, we recycle as much as possible the by-products resulting from the transformation of natural raw materials into extracts. This allows us to offer our customers an alternative range from these co-products, and to minimize the impact on nature by optimizing the initial extraction process, while revealing new facets of an authentic raw material. ...

**THANKS TO A SPECIFIC RANGE OF PRODUCTS** This is how our « bioabsolute » range was born nearly 30 years ago and recently switched to « by-absolute ». This range of products, resulting from material recycling, is a benefit that highlights each of the raw materials we process. It is an opportunity to prove the new organoleptic and biochemical potential of raw materials by providing unique scents that enrich the perfumer's palette; while contributing to the development of a circular economy, supporting a sustainable industry.

## About Company

Synarome is a French fragrance ingredients provider based in Chartres, in the heart of the Cosmetic Valley.

We have been producing iconic specialties, premium molecules, and natural extracts for more than 95 years, to enhance creativity.

Between heritage and modernity, Synarome stands out by perpetuating the production of its legendary products and renewing itself through natural and synthetic ingredients.

All over the world, we distribute a wide range of signature ingredients that contains all its expertise and knowledge.

As a genuine and reliable partner, the satisfaction of our clients is our key priority and everything is done to certify a high level of service. Offering exceptional ingredients with passion and commitment, Synarome creates strong partnerships with its customers.

Working worldwide, Synarome is able to deliver its clients in a timely manner thanks to a strong supply chain.

With its expertise in organic chemistry and distillation, Synarome supports its customers in the long term by providing an exclusive portfolio. Thanks to its sophisticated and adaptable equipment, Synarome produces a wide range of ingredients and offers custom manufacturing.

Known for our emblematic bases that are Ambrarome or Animals, we offer a large choice of ingredients in each olfactory family.

Our perfumers' expertise allows us to support our clients and guarantee them a high quality.

# LANXESS

## About Company

LANXESS is a leading specialty chemicals company based in Germany with sales of EUR 7.6 billion in 2021. The company currently has about 14,900 employees in 33 countries. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives, specialty chemicals and plastics.

LANXESS is listed in the leading sustainability indices Dow Jones Sustainability Index (DJSI World and Europe) and FTSE4Good.

LANXESS is a major supplier of Toluene derivatives manufactured at its production facilities in Nagda; India, Germany, USA, The Netherlands and UK. The organization completed the acquisition of Emerald Kalama Chemical in 2021, thus becoming one of the leading providers of aroma chemicals for flavors and fragrances industry.

# Description of Products | Services offered

LANXESS Flavors & Fragrances (F&F) business unit develops and produces flavors and fragrances, preservatives, and animal nutrition products. Our F&F substances are found in various everyday consumables, such as fine fragrances, cosmetics and personal care products, detergents and cleaning agents, beverages, baked goods, candles, oils, and animal feed.

In the presentation the beauty of the post acquisition combined aroma chemicals portfolio for Flavor & Fragrance compounding will be highlighted. We offer an extensive range of fragrances: floral, spicy, citrus, woody, and earthy aromas, as well as fresh and soapy scents.
